Metal for rotary engraving

The premium and value United States Air Force dress uniform badges. With overall dimensions of 3/4"x3", these badges are constructed of a .25" silver nickel-plated brass shell (premium) or silver nickel shell (value) that wraps around an attaching plastic insert, as specified by the US Air Force. The attaching hardware on the plastic insert is prong and clutch type. Each unit is sold with the adhesive-backed plastic back unattached to the shell to simplify the engraving process. Clutch hardware is included.

For this specific badge, the USAF requirements dictate the engraving be done with a .030" or .040" tip cutter. (We recommend a .030" tip cutter, sold below, engraved to a depth of .008" to .010"). The text must be all in capital letters, and be 1/4" in height. The font used must be standard block or SL513 Portuguese font. As specified by the USAF, the text on the badge is to be engraved and paint-filled with a specific blue engraving enamel, purchased separately (see below).
